

## Salinity Refractometer MASTER-S28M

[Enlargement](#)
[about the icons](#)

The units can be used for controlling the concentration of saltwater used in rinsing seafood or salinity in cooking. NEW material (which is durable for salty and acid sample) is adopted. The Master-S28M is a good alternative choice when the water resistant feature is not a priority and the Temperature Compensation will be carried out manually.

### Specifications

Model	MASTER-S28M
Cat.No.	2483
Scale	Sodium chloride
Measurement Range	Sodium chloride : 0.0 to 28.0g/100g
Minimum Scale	Sodium chloride : 0.2g/100g
Dimensions & Weight	3.2 x 3.4 x 16.8cm, 90g

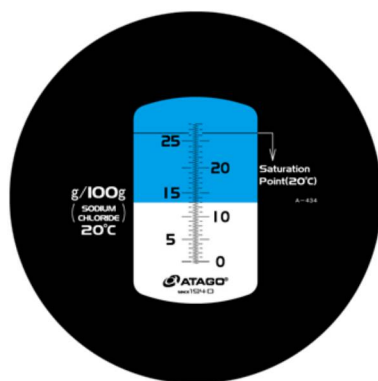

### Options

- Daylight plate for small volume samplings : RE-2391-50M
- \* Calibration Certificate : Contact an ATAGO representative for details.

### Parts

- Daylight plate : RE-2315-61M

Design Registration No.000379326-0001, 000379326-0002 (EU)
