

Refractometer-Refractive Index PAL-RI

The long-awaited "Pocket" digital and compact sized PAL-RI was released. When the start key is pressed after placing some droplets of sample on the prism, the Refractive Index (resolution 0.0001) and temperature °C of the measurement will be displayed continuously.

Specifications	
Model	PAL-RI
Cat.No.	3850
Scale	Refractive Index
Range	Refractive Index:1.3306 to 1.5284 Temperature 5 to 45° C
Resolution	Refractive Index : 0.0001 Temperature : 0.1° C
Accuracy	Refractive Index:±0.0003 (water at 20° C)
Measurement Temperature	5 to 45° C

- Accessories
- PAL-CASE : RE-39409
 - JORDAN for PAL(Silicon Cover) : RE-39414
 - STRAP : RE-39410
 - Battery Case Cover With O-Ring : RE-38163
 - USB Battery Charger : RE-34801
 - 30% Sucrose (±0.03%) : RE-110030
 - 60% Sucrose (±0.05%) : RE-110060
- * Calibration Certificate : Contact an ATAGO representative for details.
